

BRITE[®] - Clinging Bowl Cleaner

Description

This product is a pleasant, non-fuming, viscous cleaner that banishes rust, calcium, lime scale, slime and discoloration from toilet bowls, urinals, shower stalls and all ceramic tile surfaces. It has a mild, minty aroma that leaves a pleasant after-scent wherever used.

Because of special additives, it clings to slick bathroom surfaces. Simple flushing will not remove it from the interior surfaces of the urinal or commode, necessitating physical scrubbing action for complete and effective cleaning.

Unlike harsh, high-acid content bowl cleaners, this product has no acidic fumes, won't harm the skin or damage floors.

Features

- Multiple Uses
- Pleasant Aroma
- U.S.D.A. Authorized
- Safe And Economical
- Will Not Harm Hands
- Effective Cleaning Action
- Clings To Vertical Surfaces

Use And Directions

Apply full strength directly to bowl mop, swab inside of bowl and flush. (Stubborn stains may require a second application.) After bowl has been cleaned thoroughly and flushed, a solution of 2 or 3 ounces of product poured into the bowl may be used to clean toilet seats, hold bolts, outside of fixture and floor area directly in front of fixture. Rinse thoroughly after use.
